PRESIDENT'S REPORT.

To the Board of Corporators and Trustees of St. Luke's Hospital:

GENTLEMEN:—I beg to submit herewith my report for the year ending December 31, 1917.

The past year has been an encouraging one from the point of view of patients treated; in that respect we have reached our limit and cannot expect better results without further expansion of our accommodations which are entirely inadequate to meet the demand of all classes of patients for admission. This can only be accomplished when our contemplated scheme for rebuilding is carried out, but this we cannot anticipate before the termination of the great world-conflict.

The physical condition of the Hospital property is good, and the entire plant is in good repair. By rigid economy and attention to only the most urgent repairs we have been able to go through the year with only a slight deficit, which has resulted from the enormous increase in cost of every commodity, especially food, fuel, labor and medical supplies. This increase has occurred gradually in the past three years, with the exception of medical supplies the percentage of increase of which was greater in 1916 than in the past year, but we may expect a much larger ratio in all commodities for the ensuing year. To meet the present increased cost of operation we must depend largely upon the charitable public to enable us to continue and uphold our present ratio of free work, which I am glad to say has been maintained up to our maximum of thirty-six per cent. It is a regrettable fact that the financial support from Churches and individuals is not

what it should be. There are about 115 Churches and Missions in the Diocese of Chicago, out of which number twelve have contributed only \$228.69 in 1917, being an average of about \$1.91 for all Churches and Missions. St. Luke's is to-day and always has been recognized as the Episcopal Church Hospital, and although we ask nothing, yet it is only reasonable to expect that we should receive some support from the Church.

Our Social Service venture is still in the experimental stage, but we have every reason to expect that in time it will become of great importance, not only in rounding out the training of the student nurse, but in contributing to the general uplift of the community in which she works. The aim is to visit all ward out-patients in their homes, and after careful study of the individual or family environment and the cause of poverty and disease, to do the needed constructive work of directing and educating such patients in the laws of health and care of children, restoring courage and eliminating poverty to a degree.

The Training School for Nurses, under the able supervision of Mrs. Jessie L. MacDonald and the subordinate officers has developed excellent results and maintained its high standard of efficiency, the graduating class last June being as large as for any previous year, if not larger. The present class is made up of unusually bright young women, better fitted to take up the work than the average class of students accepted.

St. Luke's Hospital is represented in the nursing and care of our soldier boys by a large number of the staff and internes and many of its nurses. We have every reason to be proud of their patriotism and devotion to our country, and can only say God bless them all.

Owing to the growing demands of the laboratory service, further facilities seem to be necessary to permit of more effective handling of the increased work.

In conclusion I wish to express my thanks to the members of the Woman's Board for the continuance of their faithful work. The various committees have been as zealous as ever; the Linen Committee has done its usual valuable work in keeping up the stock of Hospital linen, and it is my pleasure to extend to them the thanks of our Board for their continued efficient and substantial aid.

I desire to give expression to my keen appreciation of the interest shown by all connected with the Hospital, and especially for the efficient services rendered by our Superintendent and by the Officers, and all persons employed under their direction.

Reference is made to the various Reports which follow as to details of the work of the Hospital.

WILLIAM J. BRYSON,

President.

SUPERINTENDENT'S REPORT.

To the Board of Trustees of St. Luke's Hospital:

I beg to submit herewith a report for the year ending December 31st, 1917.

You will note by the statistics which follow that while the increase in the number of patients cared for during the year is but one percent, there is an increase of 6% in the amount of work done. This is due to the fact that the average stay of a patient was greater.

It must be borne in mind when making comparison with last year's report that the 1915-1916 report covered a period of fifteen months, owing to the change in our fiscal year, while this report is for the twelve months of 1917 only.

This has been an unusual year from every standpoint. The advance in price of almost every commodity used by the hospital has brought the cost of operation up enormously. In order to protect ourselves against these constantly advancing prices it was deemed wise to purchase large stocks of surgical supplies and store them. This has proven to have been a wise precaution, most commodities having gone up at least fifty per cent, and, as was the case of gauze, cotton and linen, as high as one hundred percent.

The withdrawal of a number of our doctors for war duty has meant frequent readjustment of the Medical Staff. War service has likewise made a constant change of the Intern Staff necessary.

Due to the probable withdrawal of a large number of nurses for Government service with Unit #14, it was considered necessary to increase the number of pupils in the Training School, which was made possible through the generosity of Mr. and Mrs. Wm. G. Hibbard, who gave the hospital the use of their home on Prairie Avenue, which houses twenty pupils. Its location makes their home particularly adaptable for this purpose, being within easy walking distance.

The Government is constantly making demands upon the hospitals for more nurses for active service, and requesting that we release our senior class as soon as possible. With this in mind we are at the present time planning a second increase of the Training School, so that the hospital service will not suffer by the seniors withdrawal.

Elsewhere we print our Honor Roll, giving the names of the physicians and nurses who are on active duty at the time this report goes to press. This list does not include the names of those connected with Unit #14 who have not reported for duty at this date.

The details of the years work may be found in the statistical figures in the reports which follow.

JOHN L. MEIGS,
Superintendent.

January 1, 1917 to December 31, 1917.

REPORT OF DIRECTRESS.

To Mr. J. L. Meigs, Supt., St. Luke's Hospital, Chicago:

DEAR SIR:—I herewith beg to render you the thirty-third Annual Report of the Training School for Nurses, for the year ending December 31, 1917.

Nurses in the School, Dec. 31, 1917.

Directress	1
Directress' Assistants	2
Instructresses	2
Night Supervisors	2
Surgical Nurses	3
Head Nurse, Ophthalmic Dept.....	1
Head Nurse, Obstetrical Dept.....	1
Head, Orthopedic Dept.....	1
Pupils	174
Pupils graduated during the year.....	39
Applicants during the year.....	1,000
Probationers admitted	95
Class 1918, still in training, Dec. 31, 1917.....	46
Class 1919, still in training, Dec. 31, 1917.....	47
Class 1920, still in training, Dec. 31, 1917.....	88
Pupils on special duty, days.....	3,156
Graduates on special duty, days.....	16,595

The efficiency of the surgical department has been increased by dispensing with the services of a Night Surgical Supervisor and appointing a General Supervisor of Surgery, Miss Edith Bender, this giving the nurses in training constant teaching and supervision in their operating room work.

There have been a few changes in the Training School staff on account of the resignation of the following nurses, who are expecting to leave for active service in France. Miss Harriet Young, Miss N. M. McClintock, Miss Mildred Weismiller, Miss Katherine White, and Dr. Johnstone. Other changes will occur

in our staff when the Hospital Units are complete and mobilize for duty over seas.

Miss Laura Beaton has been appointed assistant in charge of the Main Building, Miss Lulu Dilge, Night Supervisor of Main Building, Miss Georgia Jinks, Head Surgical Nurse in Amphitheatre, Miss Louise M. Spohr, Educational Instructor, Miss Faye Mack, Supervisor Orthopedic Department, Mrs. Swartz, Supervisor Surgical Supply Room, Miss Edna R. Murray, who last year opened our Surgical Supply Room, leaving for a four months post-graduate course in Sloane Hospital for Women, New York City, now in charge of our Obstetrical Department.

During the past year, through the kindness of the the Woman's Board of St. Luke's Hospital, the nurses have enjoyed a tennis court, which has been of inestimable value, giving opportunity for out-door exercise.

The splendid gift of Mrs. Henry Walker to the Training School of our "Walker Gymnasium" with equipment has afforded one of our greatest pleasures. Here the nurses may have social evenings and small dancing parties, an orchestra being provided by Mr. Bryson, and dishes by the Woman's Board. Weekly gymnasium classes are held with a teacher, the kindness of Mrs. Pirie, with additional equipment furnished by Mrs. Chauncey Borland being responsible. This hall meets a long felt need and is greatly appreciated.

Owing to the urgent request of Washington for the hospitals to increase their number of nurses, and also to meet in some measure the need when our units leave for France, we have increased our Training School by about twenty-five nurses, this being possible through the wonderful loan of Mr. and Mrs. William Hibbard of their home on Prairie Avenue as a residence for the nurses. This is of greatest value, as it provides bright

sunny rooms and gradually accustoms the nurse to institutional life before having her enter immediately, "Saranac" building, which is not adequate as a residence.

Many of our graduates are in Cantonment Hospitals and on duty in France, and numbers are preparing to leave in the very near future, St. Luke's Nurses taking their part in the Great World War.

Respectfully submitted,

JESSIE LAMB MACDONALD, R. N.,

Directress of Nurses.

REPORT OF CHAPLAIN.

To the Board of Trustees, St. Luke's Hospital, Chicago:

GENTLEMEN:—But for interruptions due to death in my family, enforcing my absence from the City for several weeks, the chapel and ward services have been maintained throughout the past year as usual.

I have now completed eighteen years of service as Chaplain at St. Luke's. During the earlier years we were like a large family—very close personal relationships were formed. Around the small group then so mutually helpful, one to the other, and so heartily co-operating in the spiritual work of the Hospital, has grown up a large following scattered over the western portion of our land, from Chicago to the Pacific Coast and the Gulf to Canada. With many of these souls I am in touch through correspondence. The spiritual results are cumulative, inspiring and encouraging. The value of long service in one field has been fully demonstrated.

Institutions generally find their origin in some one personality and for a definite purpose. As they develop in size the personal element vanishes. There is danger, too, that the definite purpose may be lost sight of.

St. Luke's was founded by a priest of the Church and built up through the efforts of devoted, large-hearted churchmen and churchwomen that the sick poor of Chicago might be properly cared for under christian influences.

It was intended that the soul should be ministered unto as well as the body. "*Lest we forget*" I take it

to be the function of the Chaplain to keep this primary purpose before the minds of all who are engaged in the work to the best of his ability, while maintaining the services and administering the sacraments and offices of the Church to those desiring the same.

What more inspiring vocation could a man have than this—to stand in the place of such a self-sacrificing, devoted priest as the founder of St. Luke's with such an object in view? He needs to make no apology for urging the cooperation and support of all whom he can reach.

To the end that this purpose may never be lost sight of, and that the work may be permanently established, we are hoping and praying that some devout churchman will be moved to provide a building for Chapel, Library, Chaplain's Quarters and an Assembly Hall suitable for entertainments, receptions, lectures and the like. The Chaplain would certainly like to get into touch with some one interested in this project.

During the year, in my official capacity, I have administered the Holy Communion thirty-five times, baptized four, and officiated at seven marriages and thirteen funerals.

Thanks to the thoughtfulness and generosity of many friends, we have been well supplied with books and other printed matter for the patients.

Respectfully submitted,

GEORGE DEMING WRIGHT,

Chaplain.

RULES

AS TO

ENDOWED ROOMS AND BEDS

A donation of \$5,000 endows a bed in a ward with the right to name the bed in perpetuity, but without the right to nominate occupants for the bed.

A donation of \$7,500 endows a bed in a ward with the right to name the bed in perpetuity and the right to nominate the occupants of the bed during the lifetime of the endower.

A donation of \$10,000 endows a private room with the right to name the room in perpetuity, but without the right to nominate the occupants of the room.

A donation of \$25,000 endows a private room with the right to name the room in perpetuity and the right to nominate the occupants of the room during the lifetime of the endower.

The right to nominate the occupants of a bed or room shall be understood to mean:

That the endower shall have the right to nominate one patient at a time to occupy the said bed or room, and if all beds or rooms are occupied to a preference over all other applicants when a vacancy occurs.

In the event that an endowed bed or room is occupied the Hospital reserves the right to place the patient in some other equally good bed or room.

Persons nominated to free beds or rooms should be worthy subjects for such charity.

REPORT OF THE PRESIDENT.

It gives me great pleasure to submit the Annual Report of the Woman's Board of St. Luke's Hospital. In spite of the ever increasing demands for help in war relief work, our committees have been most successful in all they have undertaken, and the universal spirit of giving has helped our home work too.

I wish to thank all the members of the Board for their help and hearty co-operation.

Respectfully submitted,

MERDYN WINSTON BAUM,

President.

In the third Annual Report the Committee is glad to report not only a decided increase in the work accomplished, but the addition of two workers in the Department—a full time clerk and a pupil nurse, who is given one month's training in Social Service work. With the additional help a more systematic follow-up plan can be carried out, and a call made in the home of every free patient, as soon as possible after admittance to the hospital. This precludes the possibility of giving free care where it is not needed, and gives a background of knowledge helpful in medical and convalescent treatment. Social troubles in the homes are treated and an effort made to lessen each patient's home cares.

Special attention is given the Obstetrical and Childrens wards, instruction is given in hygiene and diet by visits to the homes, and by the help of educational literature published by the Health Department and Federal Children's Bureau.

The Department co-operates with the medical staff in bringing about the return of medical and orthopedic patients for regular examination and treatment. Home visits are made, and the necessary social work is done in the homes of these patients.

Braces are secured for the crippled children in homes where the income is insufficient even for proper food and clothing.

During the year 1917 the expenditures, exclusive of salaries, have been \$425.86 for 1,592 patients, an average of 27 cents for each patient. Though the Department does not plan to be a relief organization, many children might have been supplied with necessary surgical appliances, babies with milk, and the burdens of many mothers lightened by the use of very little more money in families not eligible for help from the regular relief organizations of the city.

Through the kindness of individual members of the Woman's Board it has been possible to supply milk for a number of poorly nourished babies, where the family income was not sufficient for the needs of many children.

The Committee gratefully acknowledges the assistance of the many organizations in the city without whose co-operation a hospital Social Service Department would accomplish much less.

The Infant Welfare Society, who have helped in the follow-up instruction in the homes of young babies.

The Public Health Nurses, who have helped in the home care of patients and their families.

The United Charities, in all problems of relief.

And the Convalescent Homes, who have always been ready to make room for our convalescing patients.

The Department hopes during the coming year to extend the educational work by having a visiting housekeeper, whose entire time will be given to teaching practical housekeeping, cleaning, cooking and sewing, in the homes of the hospital patients, many of whom are patients as a result of home conditions.

The Department also has plans, but no funds, for the hospital instruction of physically handicapped patients, who are discharged from the hospital, unable to return to their former occupations. Through the co-operation of the different occupational centers, a number of these patients have already been placed. With previous instruction, they may go directly into self-supporting work.

The Annual Report of the Department in figures, is as follows:

Families carried over from 1916.....	500
Work done in new families.....	1094
Convalescent care given	152
Surgical and medical appliances	36
Employment	23
Transportation	78
Hygienic instruction	555

On hand, Nov. 1st, 1917.....		\$55.00

Permission for the nurses to use the Chicago Beach Hotel Bathing Beach, through the summer, was obtained through Mrs. Frank Walls and the generosity of Mr. Hatley.

A tennis court was provided for the use of the nurses during the summer.

Before graduation in June, Mrs. Willis invited the nurses to come to Flossmore as her guests, to pick daisies. Unfortunately the unseasonable weather prevented the carrying out of her plans.

Respectfully submitted,

(MRS. C. B.) BELLE W. BORLAND,

Chairman Nurses Committee.
